Safeguard Security - new office fit-out

Location: Lumley Court, Chester-le-Street, Durham

Project Scope:

Office Options were selected by Silverstone Building Consultancy to deliver a new office fit-out project for their clients, Safeguard Security (NE) Ltd, who were relocating to Drum Industrial Estate, Chester le Street, Co. Durham.

Works included:

- Space planning & design
- Project management
- Building Control submission & approval
- Partitioning & joinery works
- Glass walls & manifestation
- Electrical works – reconfiguration of existing power, data & lighting provision
- Creation of new kitchen & dining area
- Vinyl & carpet tile flooring works
- Painting & decorating
- Air Conditioning works

The two-storey open plan space was divided up to create the offices, training rooms and break-out areas required by the client, whilst retaining a light and airy feeling throughout with the use of full-height glazed wall sections in several of the internal walls.

The finished result is a bright and practical workplace in a great location with space for the company to expand and thrive!
